

Exhibit A

(Amendments to Claims 16-75 relative to Immediately Prior Versions)

16-18. (Cancelled)

19. (Currently amended – for clarification, and to add indentations) A portable

5 infant bed comprising:

a. an integrated support unit comprising

a generally rectangular flat base panel having two parallel longitudinal
sides and two parallel ends,

an end wall perpendicularly attached at one end of the base panel,

10 a first side wall perpendicularly attached along one of the two
longitudinal sides of the base panel and to the end wall, and

a second side wall perpendicularly attached along the other of the two
longitudinal sides of the base panel and to the end wall;

b. a fabric cover fitting over the base panel, side walls and end wall of the unit, said
15 cover extending beyond the opposite end of the base panel; and

c. a generally rectangular pad that fits between said side walls, said pad extending
beyond the base panel adjacent to the extended cover.

20-22. (No changes)

23. (Currently Amended – indentations only) The infant bed of claim 21 wherein

a pair of handles are provided, one handle being in the vicinity of said end wall and the other on said cover extension, and

5 a hinge is provided in said cover at a point beyond said base panel.

24-28. (No changes)

29. (Currently amended – indentations only) A portable infant bed comprising:

a. an integrated support unit including

10 a generally rectangular flat base panel having two parallel longitudinal sides and two parallel ends,

a first end wall perpendicularly attached at one end of said panel,

a second end wall perpendicularly attached at the opposite end of said panel,

a first side wall perpendicularly attached along one of the two longitudinal sides of said base panel and to each of said end walls, and

15 a second partial side wall perpendicularly attached along a portion of the opposite longitudinal side of said base panel and to one of said end walls, leaving a gap between said second side wall and said other end wall ;

b. a fabric cover fitting over the base panel, side walls and end walls of said unit; and

20 c. a generally rectangular pad that fits inside said end walls and said side walls adjacent to said cover.

30. (No changes)

31. (Currently amended) A portable infant bed comprising:

a. a generally rectangular flat base panel having two parallel longitudinal sides and two shorter parallel ends;

5 b. a end panel perpendicularly attached to one end of said base panel;

c. a first side panel perpendicularly attached along one of the two longitudinal sides of said base panel and to said end panel;

d. a second side panel perpendicularly attached along the opposite longitudinal side of said base panel and to said end panel; and

10 e. a generally rectangular pad for placement on said base panel between said side panels, a proximal end of said pad abutting against said end panel ~~said pad configured to have a proximal end abut said end panel~~ and a distal end extend outwardly from said base panel.

32. (No changes.)

15 33-34. (Cancelled.)

35. (Currently amended – clarification, and to add indentations) A portable infant support unit comprising

a generally rectangular flat base panel having two parallel longitudinal sides and two parallel ends,

20 an end wall perpendicularly attached at one end of said panel,

a first side wall perpendicularly attached along one of the two longitudinal sides of the base panel and to the end wall, and

a second side wall perpendicularly attached along the other of the two longitudinal sides of the base panel and to the end wall,

5 at least one opening on the back of said base panel for receiving suction cups,

a fabric cover covering the base panel, side walls and end wall of said unit, said cover having at least one opening therein corresponding to the position of each suction cup, and

10 a generally rectangular pad that fits between said side walls on top of said cover.

36. (Currently amended – clarification, and to add indentations) A portable infant support unit comprising

a generally rectangular flat base panel having two parallel longitudinal
15 sides and two parallel ends,

an end wall perpendicularly attached at one end of said panel,

a first side wall perpendicularly attached along one of the two longitudinal sides of the base panel and to the end wall, and

a second side wall perpendicularly attached along the other of the two
20 longitudinal sides of the base panel and to the end wall,

at least one pair of slots provided in said end wall for receiving a
securement belt,

a fabric cover covering the base panel, side walls and end wall of said unit,
said cover having at least one opening therein which corresponds to the position
5 of each slot, and

a generally rectangular pad that fits between said side walls on top of said
cover.

37. (Currently amended – clarification, and to add indentations) A
portable infant support unit comprising

10 a generally rectangular flat base panel having two parallel longitudinal
sides and two parallel ends, an end wall perpendicularly attached at one end of
said panel,

a first side wall perpendicularly attached along one of the two
longitudinal sides of the base panel and to the end wall, and

15 a second side wall perpendicularly attached along the other of the two
longitudinal sides of the base panel and to the end wall,

a night light provided in at least one of said walls,

a fabric cover covering the base panel, side walls and end wall of said unit,
~~said cover having an opening therein corresponding to the position of said night~~
20 ~~light~~, and

a generally rectangular pad that fits between said side walls on top of said cover.

38-39. (No changes.)

40. (Currently Amended) The infant bed of claim 30 ~~wherein~~ wherein
5 said cover has at least one opening therein corresponding to the position of each strap.

41. (Currently amended) The infant bed of claim 29 ~~wherein~~ wherein
each of said side walls has an inside surface and an outside surface covered by said cover,
and at least one pocket provided on said cover on at least one of said outside surfaces.

42. (Currently Amended) The infant bed of claim 29 ~~wherein~~-wherein
10 each of said side walls has an inside surface and an outside surface covered by said cover,
and at least one pocket is provided on said cover on at least one of said inside surfaces.

43. (No changes.)

44. (Cancelled.)

45-46. (No changes.)

15 47. (Cancelled.)

48-51. (No changes.)

52. (Cancelled.)

53-61. (No changes.)

62. (Currently Amended) A portable infant bed comprising:
20 a base panel having two sides and two ends;
a generally upwardly disposed end panel attached to one end of said base panel;

a generally upwardly disposed first side panel attached to one of said two sides of said base panel and to said end panel;

a generally upwardly disposed second side panel attached to the opposite side of said base panel and to said end panel; ~~and~~

5 a fabric cover fitting over said base panel, said end panel, said first side panel and said second side panel of said bed, said cover extending outwardly from said base panel, and

a pad for placement on said base panel between said first side panel and said second side panel, said pad configured to have a proximal end generally abut said end panel and a
10 distal end extend outwardly from said base panel.

63. (Cancelled.)

64-68. (No changes.)

69. (Currently Amended) A portable infant bed comprising:

a base panel having two sides and two ends;

15 a generally upwardly disposed first end panel attached to one end of said base panel;
a generally upwardly disposed second end panel attached to the opposite end of said base panel;

a generally upwardly disposed first side panel attached to one of said two sides of said base panel and to said first end panel and said second end panel;

20 a generally upwardly disposed second side panel attached to the opposite side of said base panel and to one of said first end panel or said second end panel leaving a gap

between said second side ~~wall~~ panel and ~~said the~~ other end panel; ~~and~~

a pad for placement on said base panel generally between said first side panel and said second side panel and generally between said first end panel and said second end panel; and

5 a fabric cover that fits over said base panel, said first end panel, said second end panel, said first side panel and said second side panel of said bed, said pad configured to be disposed on top of said cover.

70. (Cancelled.)

71. (Currently Amended) The infant bed of claim 69 wherein at least
10 one of said end panel, said first side panel and said second side ~~panel~~ panels are detachable from said base panel.

72. (Currently Amended) The infant bed of claim 69 wherein said base panel and at least one of said end panel, said first side panel and said second side ~~panel~~ panels comprise an integrated support unit.

15 73. (Currently Amended) The infant bed of claim 69 wherein said base panel, said end panel, said first side panel and said second side ~~panel~~ panels form at least one integral unit.

74. (Currently Amended) The infant bed of claim 73 wherein said base panel, said end panel, said first side panel and said second side ~~panel~~ panels form a single
20 integrated unit.

75. (Cancelled.)
